**Subject:** West Lake Landfill - path forward on approving SSFS workplans

Doug, we still haven't heard from HQ on these conference calls. We briefed our RA on the status of these workplans on July 18, and it's my understanding that he was going to raise the issue with HQ folks while he's in DC this week for an unrelated meeting. Please let us know HQ's plans for a path forward.

Sincerely,

Daniel R. Gravatt, PG

Dan,

Dana asked David Kappelman (ERT in Cincinnati) to serve as a radiation expert reviewer. I believe he is looking through the background material on the NRRB site. We should get something on the calendar as a path forward.

Doug, what are HQ's plans for additional conference calls to comment on and/or approve the PRPs' NRRB workplans? After our last conference call on June 9 it was my understanding that HQ would set up another one but I haven't heard anything yet.

Thanks,

Daniel R. Gravatt, PG
